

# Welcome

Morris Arboretum began in 1887 as the private garden of John and Lydia Morris and continues growing today as a public garden. The plant collection includes specimens from North America, Asia, and Europe.

We invite you to wander paths and grassy areas, but please stay out of garden beds. Refreshments can be enjoyed in the café or snack area. Informal photography is welcome; share the highlights of your visit on social media, #MorrisArboretum.

## Please do not:

- Climb on trees or sculptures
- Pick flowers or plants
- Wade in water features
- Use sporting equipment
- Bring pets

# Key to the Arboretum
