

## Fascinating Ferns

Start by taking a virtual tour of the Fernery [here](#). Then, find and circle the common names of 12 ferns in the puzzle below. Names may go across, down or diagonally. Hint: two-word names with hyphens are spelled as one word in the puzzle.

Extra credit: Draw a red circle around the fern that grows 20-foot tall and a blue circle around the fern that can tolerate temperatures down to 15 degrees.
